Request for quotation No. 95/2025

INFORMATION NO. 1 FOR CONTRACTORS

Question:

Is this a public tender conducted by Biotechna SA? Will the mobile lines be purchased after we submit the required forms, or will we receive remuneration for participating in the market research after delivering the forms to you?

Answer:

The market research was published for the purpose of awarding a contract for cell lines. The contracting authority will evaluate the bids received and purchase the lines in accordance with the results of the procedure.

You will not receive any remuneration for preparing the bid – the bidder shall bear all costs related to the preparation and submission of the bid, regardless of the outcome of the procedure.
